

PRICING GUIDE

Services:

- DroneCraft Live
- DroneCraft Geo
- DroneCraft Films

Standard Rate:

Half day (3 hours): £195 +VAT

Full day (6 hours): £325 +VAT

Travel Costs:

First 10miles: Free

After 10miles: £1/mile

We only calculate mileage to target site, using fastest route, and do not include return mileage.

Any congestion charges, tolls or parking fees will be added to the Travel Cost.

What our rate includes:

1 x Operator – fully licensed

Insurance – public liability and personal indemnity up to £5million

Administration – site checks, risk assessments and general preparations

Equipment – drones, batteries, personal viewing screens, etc.

Footage/Images:

The footage/images can be provided to the client via a DroneCraft provided USB stick, cloud storage or directly to client's storage on-site.

Copyright:

All images delivered to the client are licensed for the client's personal use only. Permission to use the images in the agreed manner is granted upon final payment by client.

Deposit:

We require a deposit of half the official quotation at least 5 days prior to commencement of work. Remaining payment (with any additional costs) is required upon completion of work. Once final payment has been made, DroneCraft will release the raw, unedited footage to the client.

Re-scheduling/Cancellation policy:

Once deposit is paid, the schedule is set.

5+ days before scheduled date:

The client may cancel without penalty.

The client may re-schedule without penalty once. The client will then be charged for each re-schedule at 20% of quoted price.

Less than 5 days before scheduled date:

4 days before – 25% of quoted price to cancel/re-schedule

3 days before – 50% of quoted price to cancel/re-schedule

2 days before – 100% of quoted price to cancel/re-schedule

Weather/Acts of the Universe:

If weather or other acts of the universe halt our ability to operate, we will work with the client to reschedule at no extra cost. If re-scheduling is not an option, then DroneCraft will return an adjusted portion of the deposit to the client depending on expenses incurred up to the time of re-scheduling.

Please Note:

The UAV industry is still in its infancy and there are many factors that can affect the final quotation. We reserve the right to adjust these pricings at any time, so please consider them as a guideline only, and contact us directly to discuss your specific project.

Example price adjustments include:

- Is your project over water?
- Is your project long term?
- Do you require a flexible scheduling option?
- Does the footage need post processing?
- Are added crew members/operators required? (for complex filming)
- Does your project require added risk assessment/risk mitigation?
- Will we need to cordon off public areas?
- Do you require us flying at night?
- Are zombies involved?
